

First in LEDs...The solid state warning light leader.™

**FLASH PATTERN GUIDE**  
**GALAXY / GALAXY ELITE**  
*Version 060104*

The following shows the available Galaxy flash patterns as of September 9, 2004. Next to the LED Flash Patterns shows the default Warning combination. For example, “Warning 1” + “Warning 2” activates pattern #3 from the factory. Remember, however, that any combination of “Warning” inputs can be configured to any of these flash patterns. Refer to the Galaxy Installation Guide for guidelines on how to Configure the Galaxy’s flash patterns.

LED Flash Patterns	Default Warning	Directional Flash Patterns
