LS12-STT - Version 1 Flash Pattern Wiring Instructions

NOTE: Version 1 has an internal flasher, and is not dependent on the vehicle's flashing system. This would require an additional switching device to select the desired flash.

1. Left Turn
2. Right Turn
3. Stop
4. Running Lights
5. Warning

Version 2 Flash Pattern Wiring Instructions

NOTE: Version 2 does not have an internal flasher, and uses the vehicle's flash system to control flashing capabilities.

1. Left Turn
2. Right Turn
3. Stop
4. Running Lights
5. Warning
